

QSTEM::IStructureReader

```
classDiagram
    class QSTEM_IStructureReader["QSTEM::IStructureReader"]
    class QSTEM_CCfgReader["QSTEM::CCfgReader"]
    QSTEM_CCfgReader --|> QSTEM_IStructureReader
```

The diagram illustrates a class hierarchy. At the top is the interface `QSTEM::IStructureReader`, represented by a white box with a black border. Below it is the concrete class `QSTEM::CCfgReader`, represented by a gray box with a black border. A blue arrow points from the bottom of the `QSTEM::CCfgReader` box to the bottom of the `QSTEM::IStructureReader` box, indicating that `QSTEM::CCfgReader` inherits from or implements `QSTEM::IStructureReader`.

QSTEM::CCfgReader
